

# Auger Liner Kits - UHMW Poly

Condensation and wet grain will not corrode poly lining when the metal is covered with 1/8" UHMW poly. Poly lining is much easier to replace than the factory metal. Simply rivet into place. Comes with hardware.

## John Deere 200/900 and New Holland 972/973 Flex Heads

ORDER NO.	DESCRIPTION	STOCK	RETAIL
80631	Poly liner kit for 13'-16' heads.	039316	\$199.00

ORDER NO.	DESCRIPTION	STOCK	RETAIL
SS1	Stainless steel holddown strip for auger liners.	03315	\$19.00

# Rock Guard Kit - UHMW Poly

**\*From a practical stand point, these items really take care of two problems. First, they act as a rock guard to eliminate stones and rocks from entering the feeder house. Secondly they trap soybeans from rolling off of the front of the platform during harvest.**

The rock guard sections are held in place by pop rivets.

ORDER NO.	DESCRIPTION	STOCK	RETAIL
KCS13RGK	Rock Guard kit, 13' complete.	08278	\$104.00
KCS16RGK	Rock Guard kit, 15' or 16' complete.	06984	\$128.00
KCS20RGK	Rock Guard kit, 18' or 20' complete.	002115	\$160.00
KCS25RGK	Rock Guard kit, 22' thru 25' complete.	000417	\$200.00
KCS30RGK	Rock Guard kit, 30' complete.	008619	\$240.00

We stagger the rock guards to allow the grain to get off of the cutterbar (unlike other rock guard units). Half of the rock guards installed approximately 4" behind the cutterbar and the other half is 2" behind the cutterbar overlapping the rear section by 1" to 2". All mounting hardware and instructions included.
