

Feather Sheets - Poly UHMW

Replace existing steel "feather sheets" with super slick UHMW poly. Replaces all existing steel shields to allow smooth, even flow of crop from the sickle bar to the auger.

- * No more bunch up down time. * 60% less friction than steel.
- * No alterations to head are necessary. * Can ship UPS.
- * Complete with required hardware and instructions.
- * Available to fit Agco Gleaner 300 series only.
